

For this course, everyone (including the group leaders) will need an ESSENTIAL TRUTHS A5 size booklet, and a small supply of EVANGELISTIC TRACTS. The small group leaders will also need a LEADER'S STUDY GUIDE and a set of the EVANGELISM DISCIPLESHIP DVDs. Everyone else will need a DVD STUDY GUIDE. Small group leaders ought to read Julian's book. It's not a hard read. See the endorsements at www.esisite.com/endorsements.

LEADER'S STUDY GUIDES

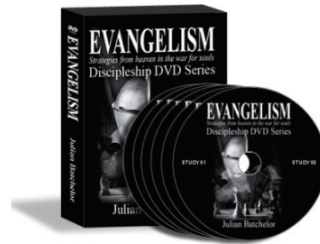

Explains in detail the various ways the course can be run in a church, tips for running the small groups, ice breakers suggestions and much much more. This guide is essential if you want to maximise the benefits of this series. This study guide had been designed to allow easy transfer from leader to leader, week to week, should groups want to share the leadership around.

DVD STUDY GUIDES

These study guides synchronise with each study on the DVDs. They are designed to ensure small group members finish the course with comprehensive notes. Each study finishes with 'Discussion and Application' questions which have proved to create healthy and lively debate and discussion!

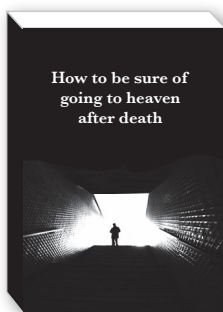

EVANGELISM DISCIPLESHIP DVD'S

There are 6 DVDs in the set and 19 studies i.e. On some DVDs, 3 or more studies are recorded. The footage is far from 'just a talking head.' You'll find each study interactive, engaging and highly stimulating.

THE ESSENTIAL TRUTHS A5 BOOKLET

Within each study there are vital truths to be grasped and retained. The ESSENTIAL TRUTHS A5 size booklet captures these critical truths, and tests whether small group members have remembered what is absolutely necessary. This is a great resource for ensuring the teaching in the course 'goes deep and sticks.'

EVANGELISTIC TRACTS

The ultimate end of this course is to have small group members actually do evangelism (James 1:22). So, right from the end of study one, we show how each person can begin evangelising by giving out tracts. 'Doing evangelism' is a critical component of this course. It was never intended to be just 'another nice teaching series!' If it doesn't translate into action, we are all wasting our time.

JULIAN BATCHELOR'S BOOK

This is really a 'must read' if you are serious about coming to grips with the issues and making an impact on this generation. The issues stopping people from evangelising are complex, and so are the answers. And they are all in this book.
